

# BOX MAN

“It is important to exploit expensive square meters - why not also use areas and places which are normally left unattended because of less space and oblique angles etc. BoxMan is qualified aspirant for an exciting and unusual display.

A male-mannequin series that meet a wide range of requirements as traditional mannequin, eye catcher and accessory presenter – a poster. Tilt and turn the mannequins in any imaginable angles - let them interact with your shop interior - they will work !

BoxMan consists of 9 strong positions individually carefully selected from graphical and eye-catching criteria. Each position represent a character and can be used as a “stand alone” mannequin, strong as a graphic icon, or even stronger in groups, repetition principle or back to back, say box to box.

BoxMan can be used for all types of clothing. Casual and Sportswear is probably what lies at hand. But a quite spectacular combination of the active positions and evening wear will certainly attract attention wherever!

The series is created as a naturalistic mannequin concept. We offer the series with a stylised head based on The original naturalistic head, Conrad.

With BoxMan as the stylised mannequin you have further opportunity to work with bright colors and through this option “kick” your display even further.....”
